SKILLS

AI / ML

- Deep Learning Computer Vision
- NLP PyTorch TensorFlow
- OpenCV

LLM

- GPT API Prompt Eng. RAG

BACKEND

- Python FastAPI Flask
- Node.js REST APIs

FRONTEND

- JavaScript TypeScript React
- HTML / CSS

DATA & CLOUD

- PostgreSQL MySQL Docker
- Linux Git VPS

LANGUAGES

- Uzbek Native
- English Fluent

EDUCATION

Computer Science

Self-taught & online courses

Continuous Learning

AI, ML & software engineering

Shahzod Nematov

AI/ML Engineer & Full-Stack Developer

Computer Vision

LLM / AI Products

SaaS Platforms

SUMMARY

AI/ML engineer with hands-on experience building intelligent systems — from AI-powered logistics platforms to real-time computer vision applications. I combine deep learning expertise with full-stack development skills to ship production-ready products end to end.

EXPERIENCE

AI Engineer

Mar 2025 – Present

Abstract IT Group

Building an AI-powered logistics platform — designing and shipping production ML features.

Assistant

Oct 2025 – Present

American University of Technology

Supporting academic and technical work in AI and software engineering.

Co-Founder

Jun 2025 – Present

Vikatoday

Co-founded and helped build the product and engineering direction.

SELECTED PROJECTS

Identify management.identify.uz

Face-recognition (Face ID) attendance system that auto-identifies employees and logs attendance, with GPS geofencing so check-in is allowed only within a designated area.

Computer Vision · AI · Attendance · SaaS

SimpleTrucking simpletrucking.online

Trucking & logistics management platform to manage loads, drivers, and trips in a single system.

Logistics · SaaS · Web

AutPlatform

Automation platform for orchestrating and managing business processes.

Automation · Platform

CallMetrics call.identify.uz

AI platform that analyzes every call — scoring sentiment, quality, and compliance automatically. CRM integrations: Bitrix24, amoCRM, OnlinePBX.

AI · Analytics · CRM · SaaS

IELTS Peak

IELTS exam-prep platform covering Speaking, Writing, Reading, and Listening sections.

Education · Platform

Multilevel

Multilevel-marketing platform with multi-tier structure and management.

Web · Platform

ALSO WORKS WITH

Java · C++ · C# · SQLite · Render · Robotics (sensor integration, L298N motor drivers) · Telegram bots & web automation · CLI tooling · technical documentation.
